

UPTON VILLAGE HALL NEW CHAIRS PROJECT

Many thanks to everyone who participated in our new chairs trial. We received almost 300 completed survey forms and the results are summarised on the chart. In addition to the scores, your comments were also very useful and we learnt a lot about the characteristics that make up the ideal chair for Upton Village Hall.

- 8 chairs with average total scores over 4.0 were shortlisted for final consideration by the trustees.**
- The final decision between these 8 excellent chairs came down to comfort, ease of handling and value for money.**
- We will be getting 200 chairs, 10 of which will have arms.**
- The chosen chair is the Fiora 60/1 manufactured by Burgess Furniture Ltd (see the photograph).**
- An acceptable deal has been negotiated with Burgess, who are holding their quotation whilst we apply for a grant for 50% of the cost.**
